

EstreSpa

EstreSpa™

Eclectic Contract Furniture Industries, Inc. is proud to introduce **Estre Spa Collection™**. The collection features six distinctly styled lines, aimed to compliment a wide range of hospitality projects.

Eclectic had teamed with historically distinguished **Salviati Crystal Manufactures** to bring you these custom amenities creations. Produced in small or large quantities, these products are handmade with time tested blown glass techniques. The **Estre Spa Collection™** can add value and refinement to any space, or be a branded feature for your Spa, Vanity, Guest Room or Retail design concept.

This exciting new product line accompanies the debut of Eclectic's **2009 E-Series**. This newly designed suite concept combines style and performance for an exceptional quality of Guest Room furnishings. Eclectic continues in our commitment to provide coordinated options for your hospitality selections.
